AGRICULTURAL ENGINEERING

The Journal of the

American Society of Agricultural Engineers

Index to Volume 1 — September to December, 1920

1920

	Pages
September	1-20
October	21-44
November	45-64
December	65-84

Agricultural Engineering (Agricultural Engineer)
Agricultural Engineering (F. N. G. Kranich) 3
AGRICULTURAL ENGINEERING (A.S.A.E. Journal) 6
The hardware association and college agricultural engineers (H.P. Sheets) 13
Agricultural engineering in farm buildings (W. A. Foster) 27
Drainage and the agricultural engineer (B. R. Mullen) 59
Important agricultural engineering conference 69

Aitkenhead, Wm.—Observations on wheel equipment 18

American Society of Agricultural Engineers
A.S.A.E. asked to test left-hand plows and disk harrows 34

Barns
(See also Roofs)
Climatic dairy barns (W. B. Clarkson and C. S. Whitnah) 23

Buildings
(See also Barns; Ventilation)
Agricultural engineering in farm buildings (W. A. Foster) 27

Calderwood, J. P.—Computations of ventilation test data in a Canadian barn 78

Chimney and fireplace construction (R S. Whiting) 28

Clarkson, W. B.—
Climatic dairy barns 23
Importance of heat in the ventilation of hog houses 68

Clearing, Land
Brush clearing 61

Concrete
Effect of water on strength of concrete (W. G. Kaiser) 32

Davidson, J. B.—AGRICULTURAL ENGINEERING (A.S.A.E. Journal) 6

Development, Land (See Reclamation)

Drainage
Drainage (J. A. Reeves) 47
Surface inlets and surface outlets in selection of run-off factor (David Weeks) 48
Solving the drainage and soil washing problems for the farmers (W. A. Steele) 50
Must drainage accompany irrigation? (O. W. Israelson) 52
Tile drainage projects a good demonstration for agricultural extension work (R. L. Patty) 57
Drainage and the agricultural engineer (P. R. Mullen) 59

Erosion, Soil (Terracing)
Solving the drainage and soil washing problems for the farmers (W. A. Steele) 48

Extension Work
Tile drainage projects a good demonstration for agricultural extension work (R. L. Patty) 57

Farm Buildings (See Buildings)

Farm Machinery (See Machinery)

Farm Management (See Management)

Farm Structures (See Buildings)

Farm Tractors (See Tractors)
Fireplace construction, chimney and (R. S. Whiting) 28

Fletcher, L. J.—Tractor service, curative or preventive? 71
Foster, W. A.—Agricultural engineering in farm buildings 27

Gothic Barn Roofs (See Roofs)

Harrows, Disk
A.S.A.E. asked to test left-hand plows and disk harrows 34

Herndon, H. R.—Sanitation in the South 72

Hog Houses, The Importance of Heat in the Correct Ventilation of (W. B. Clarkson and C. S. Whitnah) 68

Irrigation
(See also Reclamation)
Must drainage accompany irrigation? (O. W. Israelson) 52
Subduing arid lands in the West (A. R. Williams) 55

Israelson, O. W.—Must drainage accompany irrigation? 52

Kaiser, W. G.—Effect of water on the strength of concrete 32

Kirkpatrick, W.—Gothic roofs for barns 30

Kranich, F. N. G.—Agricultural engineering 3

Land Clearing (See Clearing)

Lugs, Tractor
Observations on wheel equipment (Wm. Aitkenhead) 18

Machinery (Mechanical Equipment)
(See also Harrows; Plows; Tractors)
Standardization of farm equipment (Raymond Olney) 4
Brush cutter 61

Management
Plantation management from the inside (S. F. Morse) 10

Meetings (A.S.A.E.)
Southern Section 2

Mullen, B. R.—Drainage and the agricultural engineer 59

Olney, Raymond — Standardization of farm equipment 4

Patty, R. L.—Tile drainage projects a good demonstration for agricultural extension work 57

Plows
Hardening soft center steel plow shapes (G. W. Rynders) 8
A.S.A.E. asked to test left-hand plows and disk harrows 34

Ratings, Tractor (See Tractors)

Reclamation, Land
(See also Clearing; Drainage; Erosion; Irrigation)
Subduing arid lands in the West (A. R. Williams) 55

Reeves, J. A.—Drainage 47

Roofs
Gothic roofs for barns (W. Kirkpatrick) 30

Run-Off Factor, Surface Inlets and Surface Outlets Figure in Selection of (David Weeks) 48
Rynders, G. W.—Hardening soft center steel shapes 8

Sanitation in the South (H. R. Herndon) 72

Sheets, H. P.—The hardware association and college agricultural engineers 13

Sjogren, O. W.—Why standardize tractor ratings? 67

Smith, L. J.—Barn ventilation test at Brandon Experiment Station 79

Standardization (Standards)
Standardization of farm equipment 4
Why standardize tractor ratings? (O. W. Sjogren) 67
Report (1920) A.S.A.E. Standards Committee 77
Steele, W. A.—Solving the drainage and soil washing problems for the farmers 50

Terracing (See Erosion)
Tractors
What form will the tractor ultimately take? (W. C. Zelle) 35
Why standardize tractor ratings (O. W. Sjogren) 67
Tractor service (L. J. Fletcher) 71

Ventilation
Climatic dairy barns (W. B. Clarkson and C. S. Whitnah) 23
The importance of heat in the correct ventilation of hog houses (W. B. Clarkson and C. S. Whitnah) 68
Test data in a Canadian barn (J. P. Calderwood) 78
Test at Brandon Experiment Station (L. J. Smith) 79

Weeks, David—Surface inlets and surface outlets in selection of run-off factor 48

Whiting, R. S.—Chimney and fireplace construction 28

Whitnah, C. S.—
Climatic dairy barns 23
Importance of heat in the ventilation of hog houses 68

Williams, A. R.—Subduing arid lands in the West 55

Zelle, W. C.—What form will the tractor ultimately take 35
